REPUBLIC OF SOUTH AFRICA

PREAMBLE

The 16 Days of Activism is an international campaign that takes place every year from 25 November – the international day for the elimination of violence against women, until 10 December – the international Human Rights Day. During this time in South Africa, awareness is raised countrywide to stop the violence against women and children. The overall aim of the campaign is to increase awareness of abuse and build support for victims and survivors of abuse by supporting the 16 Days of Activism campaign.

Symbolic to the 16 Days of Activism in South Africa is the wearing of White Ribbon. A white ribbon is a sign of peace and commitment of the nation to prevent and condone violence against women and children, participate in the various 16 Days of Activism events and activities, volunteer to support the NGOs and community groups who support abused women and children since there are many organisations that need assistance from the public. The slogan over the years has been “***Speak out against woman and child abuse***”. The international theme for the 2011 Campaign is: “***From Peace in the Home to Peace in the World: Proliferation of small arms and their role in domestic violence***”

The 16 Days period falls within a number of key commemorative days that includes the following:

- November 25: The International Day Against Violence on Women
- November 29: International Women Human Rights Defender Day
- December 1: World AIDS Day
- December 3: International Day of Disabled Persons
- December 6: the Anniversary of the Montreal Massacre
- December 10: International Human Rights Day

The 2011 National Department of Health theme for the 16 Days of Activism is **“A Healthy Nation to stop gender violence against Women and Children”**. The theme also links to the Departmental Negotiated Service Delivery Agreement commitment of **“ A Long and Healthy Life for All South Africans”**. For a Nation to be healthy it needs to have access to health services, The Department of Health is providing services for women and children who suffer violent incidences. These health services are provided in all the 9 Provinces. This booklet contains a list of health facilities in each Province by District to guide communities on where to access these services. We hope that it will be shared with your families, neighbours and your community.

I hope this booklet will be a useful resource for all you.

DR GM RAMOKGOPA
DEPUTY MINISTER: HEALTH
